

00: Microsoft Certified Azure Fundamentals - Microsoft

Professional Cloud Architect by Google - Google

ACHIEVEMENTS

One of the key contributors to migrate around 60+ applications to Azure Stack and IBM cloud. Participated and delivered many PoCs to gain customers' confidence (Eg: Application virtualization using Docker, Hosting SQL SSRS with HA).

Managed the entire team in the absence of multiple members (due to COVID lockdown) with zero issues and received appreciation from LBG Group CIO lead.

Designed around 75+ migration designs as part of the internal Triage team.

Received Achieving Excellence award for developing the ImageList module.
